EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Matthew W. Gordon on Tuesday May 2, 2006.

The application has been amended as follows: claims 15-30 have been cancelled.

2. The following is an examiner's statement of reasons for allowance:

Claims 1 and 8 have been found to be allowable over the prior art of record because the prior art fails to teach or suggest a center feed disk for an impact crusher comprising a peripheral edge portion, a first face defining a first impact surface, an opposing second face defining a second impact face, a central bore extending through the first and second faces and first and second countersunk pockets provided about the center bore, in combination with the remaining limitations of the claim. With respect to claim 8, the examiner take the position that the center feed disk is **strictly** to be used only in an impact crusher.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
